LINGA- Release Notes 2.1.25-1.5

Release Date: 11/05/2020

Enhancement:

In Back Office,

1) Enhancement in Membership Plan.

- Auto renewal for the membership plan is developed for the store level.
- The auto renewal feature for the account level membership plan will be released in the next development phase.

Supporting Document: Linga- Enhancement in Membership Plan.

2) Restrictions added in implementation of special combo menu item.

- The following restrictions are added for the special combo menu items,
 - Application should not allow to delete the special menu item which is mapped in combo.
 - Application should not allow to set (include modifier, optional modifier, Mandatory modifier) if user enable combo
 - Application should not allow to enable conversational option for the combo.
 - Application should not allow to set pizza slice if user enable combo
 - Application Should not allow to select modifier menu item as combo item.
 - Membership and membership price level is not applicable for combo.
 - Merge and split options are not applicable for combo.
 - Transfer is not applicable for combo

In OLO,

1) In OLO future order time will accept 15 minutes later from the current time.

Bug Fix and Customer Tickets :**Ticket No : 74413- Linga close error**

- 1) The customers at the enterprise level are now seen under the respective stores mapped when adding customers at the POS level.
- 2) The seat wise payment issue existed by taking the amount of first seat as the amount to be paid for the membership payment is fixed.
- 3) The issue existed on the overdraft allowance of the membership plan is fixed.
- 4) The field for mapping membership plan for the account level customers is removed. Since if the Customer is mapped in enterprise customer page it wont reflect as membership, we have many details to map. So customer should be mapped on the Membership Plan page only for the respective stores also to be choosed to reflect on the POS.
